

Excalibur GOLF CAR BATTERIES

**More Power
on the Green.
Less Maintenance
In-Between.**

Key Features and Benefits of the Excalibur Deep Cycle Golf Car Batteries

- **Heavy-Duty Deep Cycle Service**
High-density plates and reinforced grid design withstand continual deep cycling
- **Power-Boost Technology**
Optimizes current paths and ionic power flow to maximize performance
- **Electrical Short Prevention System**
Protects power-producing components from life-robbing electrical shorts
- **Rugged vibration resistant construction***
Reinforced internal design withstands heavy-duty use
- **Premium glass mats**
Protect battery's ability to store energy (less recharging)
- **Less watering, less maintenance design**
 - Large reservoir and ultra-pure electrolyte optimizes water utilization.
 - Special alloy and separator material reduces water consumption.
- **Outdoor-tough polypropylene case and cover**
Resist breakage to protect equipment and extend service life

Excalibur

Excalibur Golf Car Batteries

Excalibur Golf Car batteries are built with more deep cycle power for longer times on the green. Durability enhancements, high-density components, and an electrical short protection system ensure less maintenance in-between times of demanding use. Special manufacturing features significantly reduce time-consuming battery maintenance and frequent watering while delivering the industry's most trusted performance.

Integrated "twist-and-release" vent cap "quick fill" system releases vent caps in a single motion design, making maintenance a snap

Ergonomic lift handles

reduces the risk of slippage. Designed for easier installation

PART NO.	20 AH CAPACITY	5 AH CAPACITY	MINS. DISCHARGED			VOLTS	WEIGHT (lbs.)	MAXIMUM OVERALL DIMENSIONS inches (mm)						
			@ 75 AMPS	@ 56 AMPS	@ 25 AMPS			LENGTH		WIDTH		HEIGHT		
								in.	mm	in.	mm	in.	mm	
GC15	230	174	120	-	448	6	64	10 $\frac{1}{4}$ (260)	7 $\frac{1}{8}$ (181)	10 $\frac{7}{8}$ (276)

GC8V	170	130	85	121	318	8	68	10 $\frac{1}{4}$ (260)	7 $\frac{1}{8}$ (181)	11 $\frac{1}{8}$ (283)				
GC12V	155	-	77	110	292	12	90	13 $\frac{3}{8}$ (333)	7 $\frac{1}{16}$ (179)	11 $\frac{3}{8}$ (289)				

Notes:

- All weights are approximate
- All batteries are wet
- All batteries manufactured in polypropylene cases
- All ratings conform to B.C.I. specifications

PROPOSITION 65 WARNING: Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. **WASH HANDS AFTER HANDLING.**
